

SR-500 Sutherland Rub Tester

An affordable abrasion testing instrument, the SUTHERLAND® Ink Rub Tester has been the industry standard for decades. Combined with ASTM D-5264 test method, the SUTHERLAND® Ink Rub Tester is designed to evaluate the scuffing or rubbing resistance of the printed or coated surface of paper, paperboard, film, etc.

The SUTHERLAND® Ink Rub Tester is designed to perform 5 different tests; Dry Rub, Wet Rub, Wet Bleed or Transfer, Wet Smear, and Functional Rub.

The SUTHERLAND® Ink Rub Tester features:

- two speeds, 42 & 85 cycles per minute
- programmable number of cycles with automatic shut off
- sample preparation fixture
- one two pound and one four pound test weight
- digital counter with fiber optic sensor for accuracy
- optional heated test weight
