

DC-500 Swing Arm Sample Die Cutter

DC-500 Swing Arm Sample Die Cutter

This cam actuated sample die cutter is ideal for producing paper, label, tape and numerous other die cut samples. The DC-500 employs a safe cam actuated cutting stroke to produce samples with standard straight rule and clicker dies. No longer is it necessary to risk injury with hammer and hand held dies when making samples.

- Large 9" x 11" (23cm x 28cm) replaceable cutting pad.
- 8" x 8" (20cm x 20cm) upper gusted platen.
- Easy stroke and height adjustment.
- Upper platen and leverage arm swing away for easy access.
- Bolts to work table for a hazard free operation.
- Standard die sizes available.
- Dies not included.
