

Standard System includes:

- Fitted Carrying Case
- User Manual

The HI-1600 Microwave Meter accurately measures microwave leakage at both 915MHz and 2450MHz.

Three survey ranges are incorporated into a switching sequence that includes positions for battery and probe checks.

Specifications:

Frequency Response Ranges	915 MHz & 2450 MHz 0-10 mW/cm ² at 2450MHz 0-10, 0-20 mW/cm ² at 915MHz
Accuracy	± 1 dB
Response Time	Fast Mode: 1sec Slow Mode: 2.5 secs
	(to 90% of Impulse Level)
Maximum Power Density	2 W/cm ²
Dimensions	8.9 W x 15.3 H x 6.4 D cm (3.5" x 6" x 2.5")
Probe Length	30cm (12")
Probe Cable Length	1.2m (4')
