

Multi-unit data acquisition, delivering 24/7 real-time monitoring for industrial environments

# 

DataNet is an essential hardware and software solution that can empower any organization to control their network using the ZigBee wireless network.

The DataNet comprehensive real-time data logging solution is directed by event-driven security policies. DataNet delivers a truly worthy data logging solution by leveraging the power of ZigBee wireless, 2.4 GHz telemetry protocol. Supporting up to 65,000 units, with fast, cable-free installation for instant setup.

- O Wireless data logging for processing, transportation and storage
- O Internal sensors for site-specific humidity/temperature monitoring
- 4 recording inputs measuring 4 to 20 mA, 0 to 1 V, Pulse Counter, PT100 2-wires, NTC, Thermocouple J, K and T, Contact
- API for integrating DataNet hardware with proprietary systems
- O Fully reliable real-time wireless monitoring network
- Multiple alarms including SMS to any location
- Up to 65,000 units for long range monitoring
- O Worldwide license-free 2.4 GHz band
- Operating keypad and LCD display

INNOVATIVE MONITORING SOLUTIONS

PHARMACEUTICAL Monitoring environments in labs, fridges, freezers and culture rooms

WAREHOUSING Chemical, industrial and perishables storage

COLD STORAGE Optimizing temperature in refrigerated warehousing

HOSPITALS Medical alert monitoring, sterilization, blood products storage and transport

COLD CHAIN Ensuring quality products throughout the cold chain process

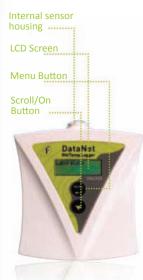

IGENT LOGGING NET SS INTEI ĹЦ

The DataNet data logging solution comprises of a variety of data loggers that can support up to 6 sensors, including internal temperature and humidity sensors. Additionally, the Mini DataNet loggers provide a cost-effective option, supporting up to two channels per unit.

DataNet multi-unit data acquisition solution is geared toward 24/7 real-time data logging for mission critical organizations. The DataNet's comprehensive online data logging solution is directed by event-driven security policies.

# The new, next generation ZigBee wireless network data logging solution

Logging units function in a wireless mesh network configuration, allowing for 65,000 units in each network. This enables real-time monitoring of multiple test points in a single operation.

Data Logger External Inputs (4)

The DataNet product range includes single channel data loggers as well as multichannel loggers supporting internal temperature and humidity sensors, as well as 4 external channels for 4 to 20 mA, 0 to 50 mV, 0 to 1 V, PT-100, Thermocouple, Contact, Pulse Counter and Frequency.

DataNet system offers a broad selection of logger models meeting a wide variety of industry applications needs.

- DNL910 and DNL920 loggers with internal temperature and/or humidity. Supports four external inputs: 4 to 20 mA, 0 to 1 V, 0 to 50 mV, PT-100 2 wires, Thermocouples (J, K and T), Contact, Pulse Counter and Frequency.
- DNL910 PA and DNL920 PA loggers with integrated power amplifier for extended range. Same supported external and internal sensors as DNL910 and DNL920.
- DNR900 Receiver/Repeater the heart of the system controls and collects the data from the end units. Also suitable for extending the system range.
- DNR800 Mini Repeater for extending the system range.
- Mini DataNet single and dual channel data loggers: DNL804 (External 4 to 20 mA) DNL808 (External NTC 10K $\Omega$ ), DNL810 (Internal Temp/RH).
- Mini DataNet with extended battery pack supports up to four batteries for three-year battery life: DNL804-BXT, DNL808-BXT, DNL810-BXT.

# DataNet Software - DataSuite

Supported Operating Systems: Windows® XP SP3 / Vista / 7 (32 and 64 Bit)

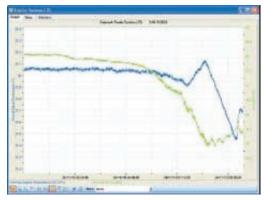

Minimum Hardware Requirements: Pentium 4, 2 GHz Processor or better, 512 MB RAM, 250 MB available disk space

# The DataSuite Software provides security for your products with online monitoring and control of the entire intelligent DataNet data logging solution.

12751	PT-100 2-wire temperature sensor 2-wire (6 m cable)
DT043	Temperature (-40 to 60 C) and Humidity probe (3 m cable)
DT332	Replacement NTC 10K $\Omega$ temperature probe for DNL808
ACCESSORIES & SOFTW	ARE
12504	Quad Band GSM Modem (for DataNet SMS alerts)
13825	External Siren + Strobe for DataNet alarm notifications
13129	Replacement standard external antenna for Mini DataNet units
13416	External 2.5 m antenna with magnet connector
13330	Mini USB communication cable for DNR900 (3 m cable)
11304	Internal battery pack for DNL9XX loggers
13848	AA 3.6 battery for Mini DataNet External Battery Pack
12928	2/3 AA 3.6 V battery for Mini DataNet logger
DataSuite-DN	DataSuite Trial Installation CD + mini USB cable 3m + single user license
SFTMCL025A	DatPass for DataSuite meeting 21 CFR Part 11 Compliancy. With USB security dongle and mini USB cable.

# About fourtec

fourtec – Fourier Technologies Ltd. is a recognized leader in data-logging and monitoring solutions for controlled industrial environments, such as food, pharmaceutical, medical, storage and transportation industries.

Our solutions enable our customers to deliver higher quality products, ensure consumer safety, comply with regulatory requirements and increase profitability. Innovation, expertise and a commitment to quality are the values that drive the development and production of our products.

# DataNet ECIFI Length and Temperature specifications are provided in Metric and Celsius units

# **INPUT TYPES**

# DNL804, DNL808 and DNL810

- **Power Supply**
- Internal, replaceable 2/3 AA lithium battery
- Battery voltage range: 2 to 3.6 V
- Battery life: Up to 10 months depending on sampling rate

# Casing

- Plastic ABS box • Dimensions: 68 x 68.6 x 26.5 mm (without
- the cradle and the external antenna) • Weight: Logger: 53 gr; Cradle: 10 gr;
- External Antenna: 17.5 gr
- Table and wall mounting

# **Operating Temperature Range**

- -30 to 75 °C
- Water and dust proof: IP54

# MINI DATANET EXTENDED BATTERY PACK

# DNL804-BXT, DNL808-BXT, DNL810-BXT

# Power Supply

- Removable battery pack supporting up to 4 x AA 3.6 V lithium batteries
- Battery life: Up to 3 years depending on sampling rate

# Casing

# Dimensions

- DNL810-BXT: 10.2 x 8.8 x 5.3 cm (without the external antenna)
- DNL804-BXT and DNL808-BXT: 9 x 8.8 x 5.3 cm (without the external antenna and strain relief add-on)

# Weight:

- 137 g not including batteries
- 218 g including four batteries
- External Antenna: 17.5 g
- Wall mounting

# **Operating Temperature Range**

- -30 to 75 °C
- Water and dust proof: IP54

# **GENERAL SPECIFICATIONS**

- Man Machine Interface
- Full keyboard operation
- **Standards Compliance**
- CE, FCC, IC Canada

# GSM MODEM FOR SMS ALERTS

- Quad Band: GSM-850/EGSM-900/
- DCS-1800 PCS-1900 MHz
- Supports Open AT<sup>®</sup> software platform • Internal Expansion Socket (AES) interface
- RS232 Serial Interface 12 V DC external power supply

# DATASUITE SOFTWARE FOR DATANET

- Windows<sup>®</sup> based software
- Data displayed in numeric or graphical display of all inputs
- Online retrieval and display of the collected data in real-time
- Definition of new sensors
- Full logger calibration
- Documentation and filing
- Alarm levels on graphs
- Export to spreadsheets
- Analytical functions, for professional analysis of the collected data
- Manual backup of calibration settings
- Over-the-air firmware update
- Software integration with range of fourtec data loggers
