

INSPACTO CAR

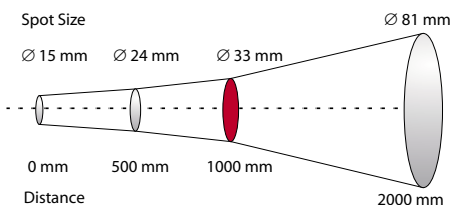

The hand-held for the car repair shop

The *INSPACTO CAR* is a precise and easy to use infrared hand-held thermometer for non-contact temperature measurement in the car repair shop. Temperature differences on surfaces can be measured very fast (300 ms) and safe.

Typical applications:

- Car repair shop - measurement of:
 - Exhaust temperatures
 - Air conditioning (car)
 - Engine block temperatures

INSPACTO CAR

- 32 ... 550 °C
- 25.6 ... 1022 °C

Scope of delivery:

INSPACTO CAR with inspection sheet, user manual and battery (9 V), supply in carrying case

Portable temperature measurement

Technical Data	INSPACTO CAR
Measuring range	-32 ... 550 °C
Spectral range	8 ... 14 µm
Optics	30 : 1
Accuracy	1 % of measuring value
Repeatability	0.5 % of measuring value
Response time t ₉₀	300 ms
Emissivity	adjustable, 20 ... 100 %
Measuring functions	MAX, MIN, AVG, DIF, HOLD
Display resolution	0.1 K
Backlit display	automatically
Laser pilot light on/ off	yes
Temperature display	°C/ °F
Ambient temperature	0 ... 55 °C
Order-No. with inspection sheet	7 610 550
Order-No. with works certificate *	7 610 560

* Works certificate with 2 standard calibration points at 150 and 300 °C

Accessories	Order-No.
Rechargeable battery 9 V	7 749 106
Tripod	7 749 107
Fanny pack	7 749 109
Carrying case, black	7 749 110
Battery, 9 V	7 749 113

Carrying case
Order-No. 7 749 110

Fanny pack
Order-No. 7 749 109
