DPOV-100PSIG-D

DPOV (100 psi / 7 bar) pump, 100 psi digital gauge

Pump and pressure gauge combination includes everything needed to perform accurate, precise low pressure calibrations

Features

- Light weight, compact pump generates up to 100 psi (7 bar) with ease
- Large volume fine adjustment piston provides precise control, even at very low pressures
- Modular design makes field maintenance quick and easy
- Precisely vent pressure with soft seated bleed valve
- Two outlet ports provide connections for both pressure reference and for device under test thus eliminating a tee
- Low volume Quick-test hose, gauge adapter and process connection can be attached to pump without thread sealant or a wrench
- Rugged, all metal construction reduces pressure changes due to temperature fluctuations
- Made in U.S.A.
